# MOTOR ACCESSORIES 2007

## Tempo Motor Flushers

Tempo Motor Flushers flush away sand, silt, salt and alkali, which prevent clogging and corrosion and extend engine life. All units install in seconds without tools. Rectangular cups help prevent fall-off and slippage during flushing operation. Works great in low water pressure conditions, which are prevalent around marinas. **810036** (958 SMF) and **810108** (963 PMF) offer dual water feed and are recommended for engine horsepower exceeding 75 HP.
